

I am horrified by the obvious bias of some of the media in the United States. Isn't it the job of the FCC to ensure balance in media? Doesn't the media and its guardian the FCC have a responsibility to ensure that all people have balanced and accurate reporting? How has Sinclair been allowed to select what is seen and heard by its listeners such that their listeners have a completely scewed picture of the world? Please do something to redress this unamerican unjust and dangerous behaviour.
